TYPOGRAPHY

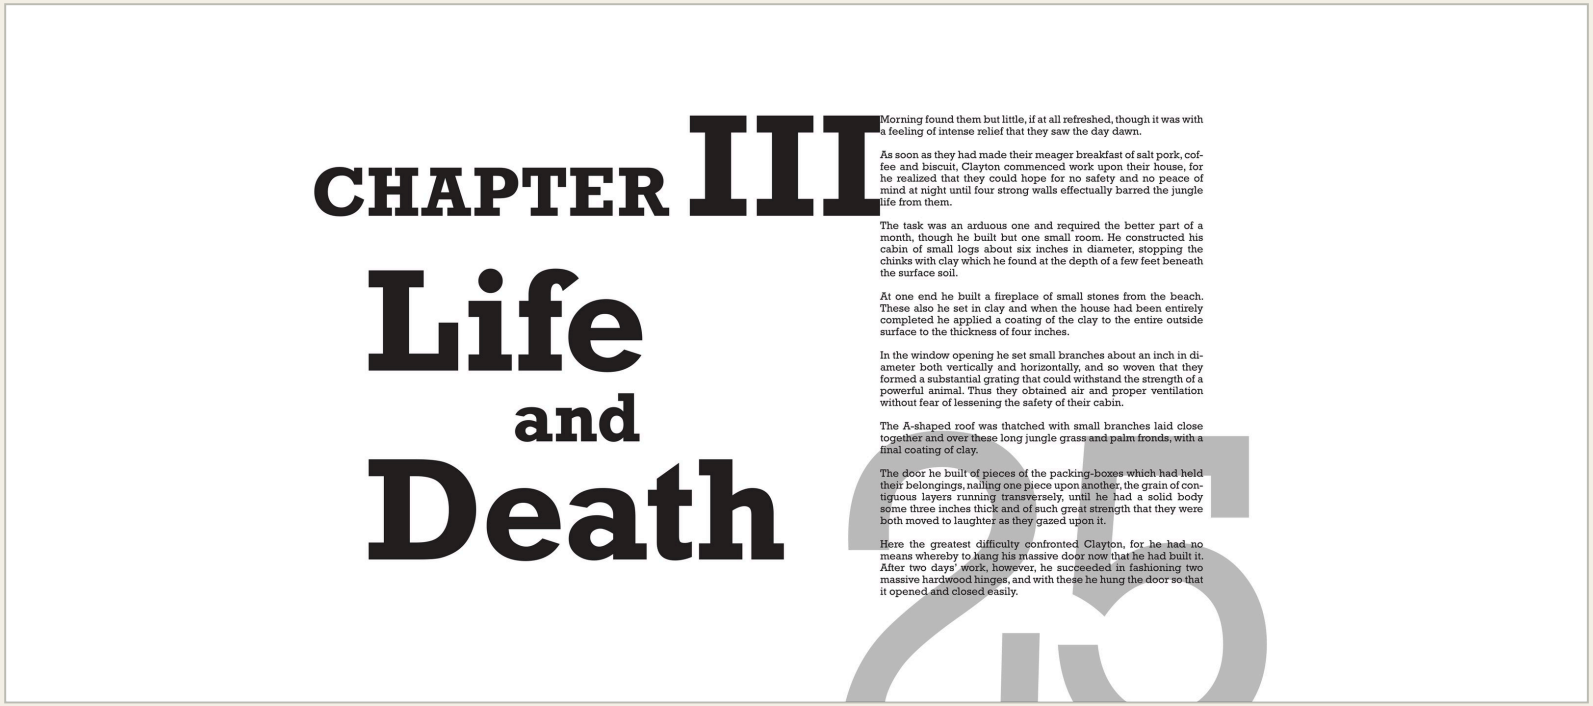

Tarzan of the Apes

Book typesetting, 17 pages · InDesign
Typography 2, OCAD University · April 2023

I typeset the first three chapters of Edgar Rice Burroughs' novel: title page, chapter openers and running text.

Each chapter opens with a stacked slab-serif title. Large grey page numbers sit behind the text block, so they work as part of the layout.

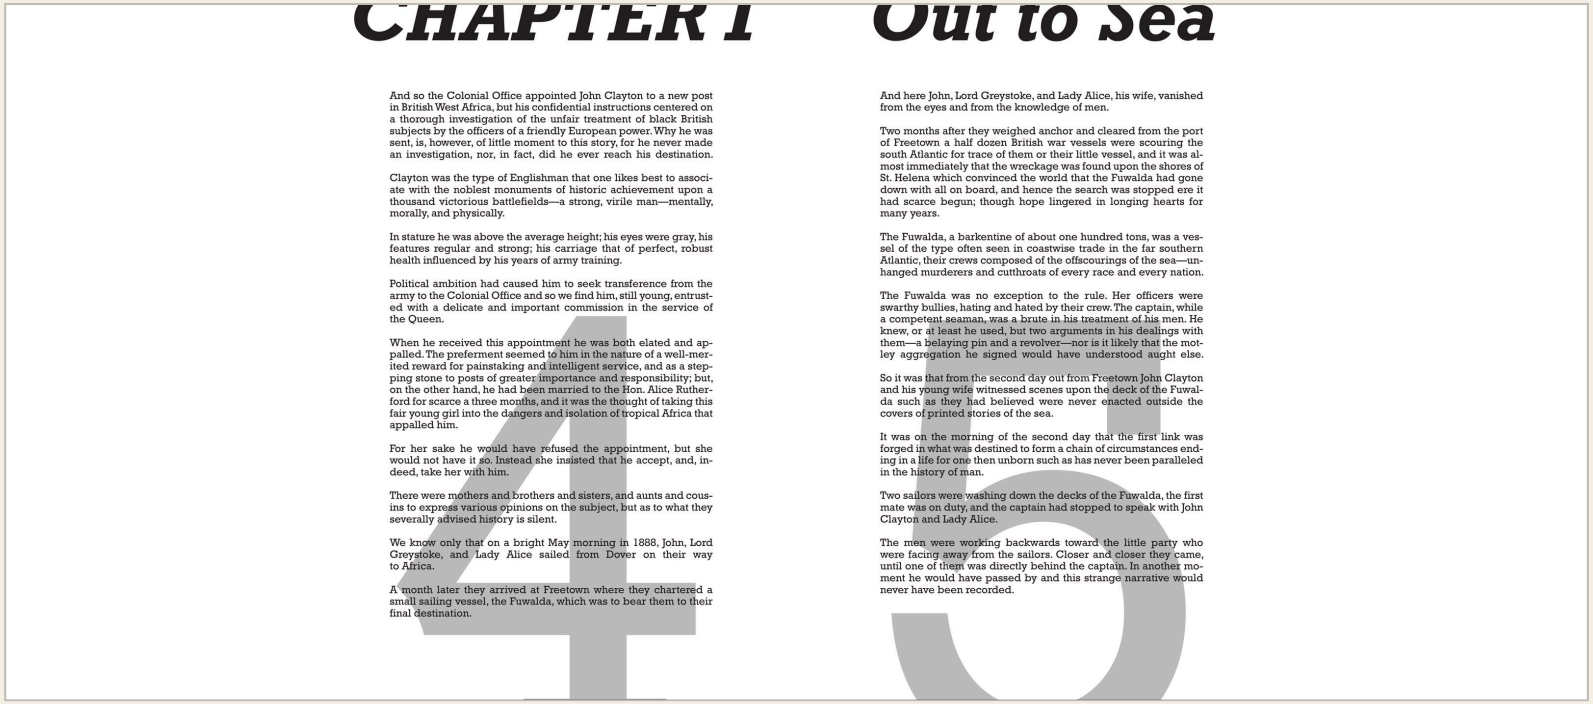

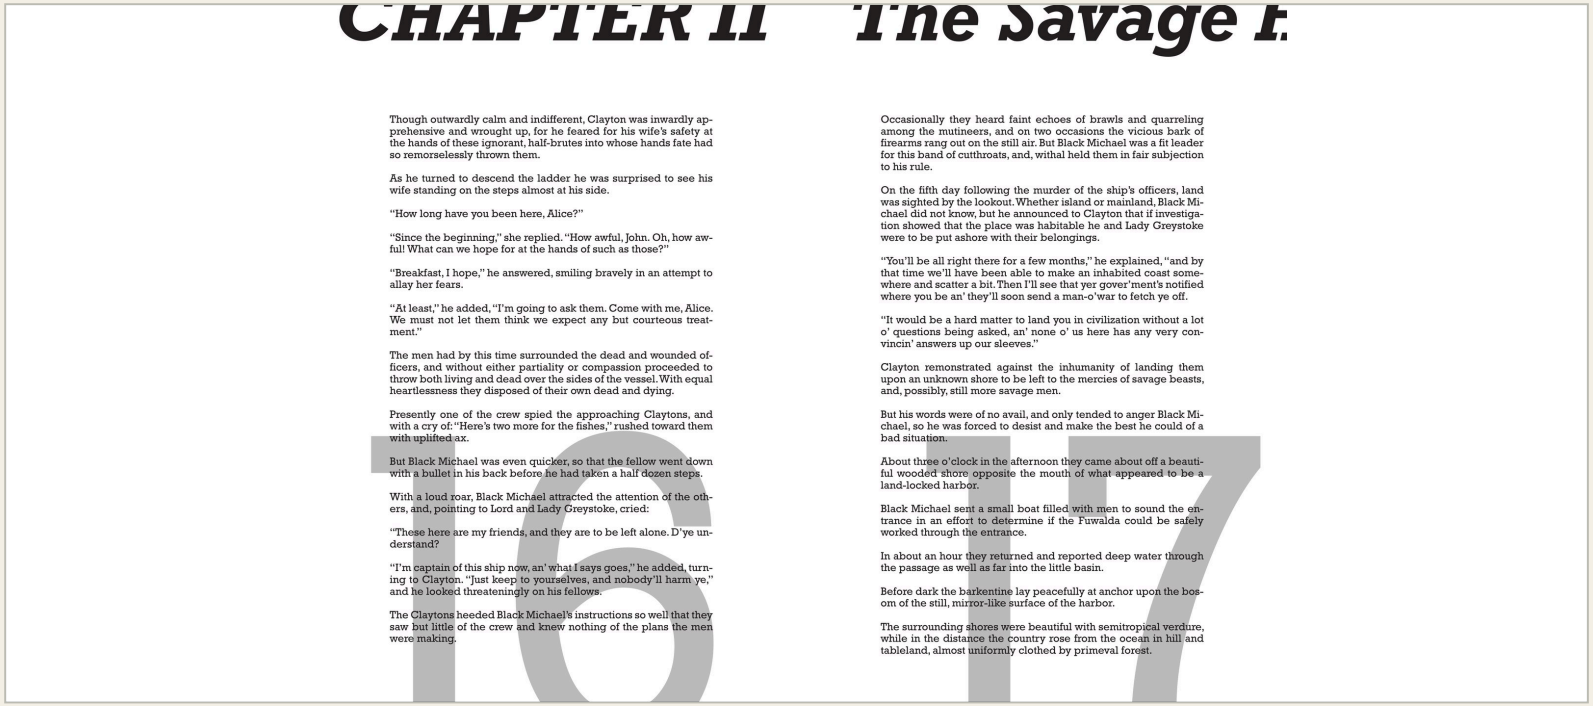

TYPOGRAPHY

Tarzan of the Apes: text pages

Running heads carry the chapter number and title across each spread. Text pages keep a single column with wide margins.

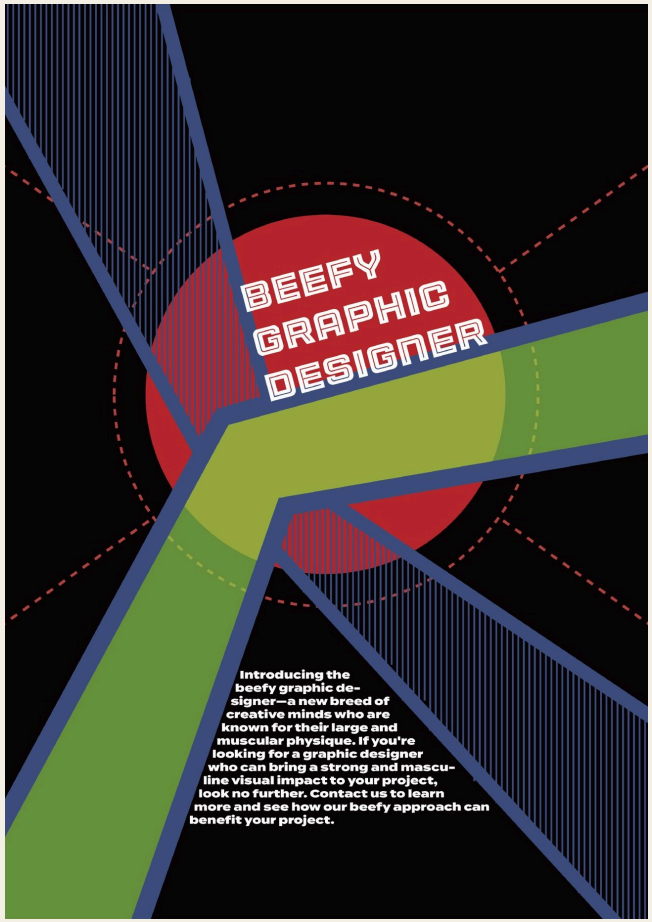

POSTERS

Beefy Graphic Designer

Poster series
Typography 2: Structures, OCAD University · February 2023

One typographic structure in three colourways. Heavy diagonal bands cut across a red disc that carries the title, and the body text is set into the space between the bands.

STUDIO WORK

Internship work, 2023

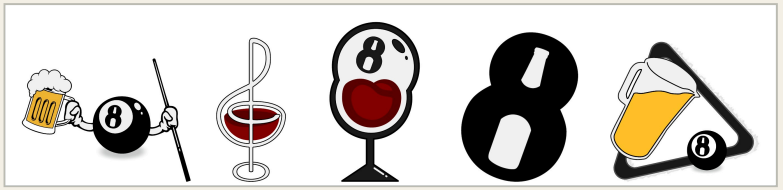

Nanjing Yindu Ogilvy Advertising · May–August 2023
Nanjing Jinguo Graphics · August–November 2023

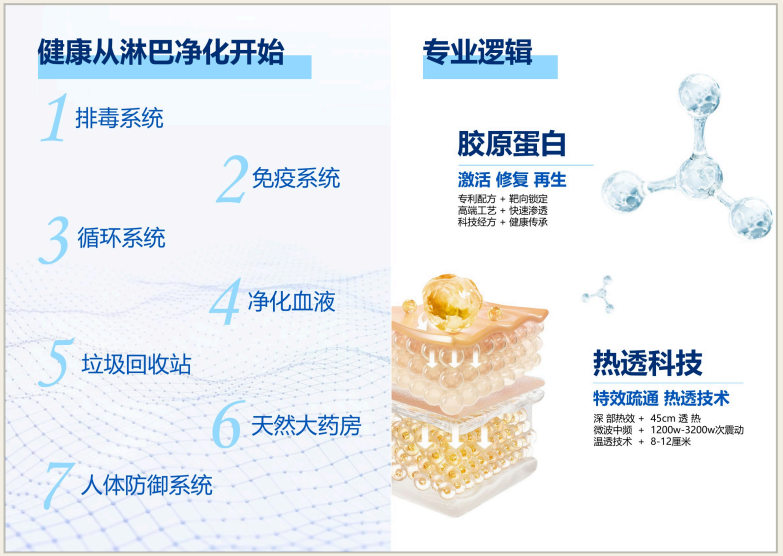

CBA Finals poster for China Mobile, an official partner of the CBA league, announcing a prize-prediction campaign.

Logo options for a billiards bar: five marks built from a pool ball, a cue and a glass.

Product brochure spreads laid out at the print shop for a skincare equipment supplier.

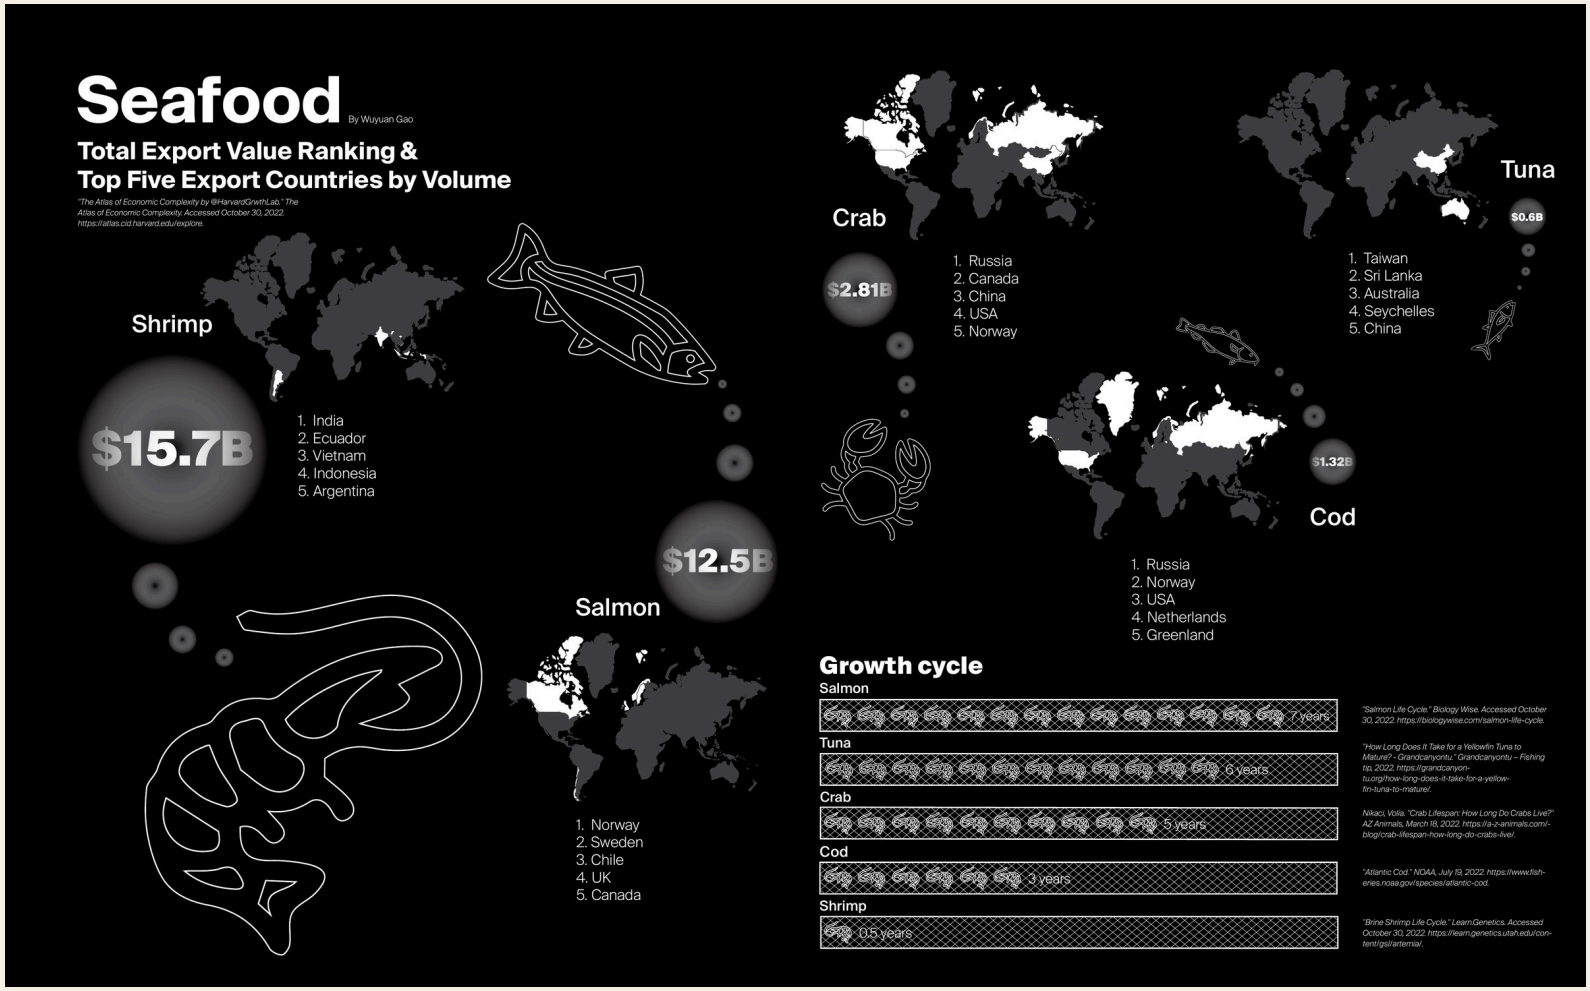

INFORMATION DESIGN

Seafood

Infographic
Graphic Design 1, OCAD University · November 2022

Total export value and the top five exporting countries by volume for shrimp, salmon, crab, tuna and cod, with a comparison of growth cycles.

Line-drawn animals and world maps on a black ground keep five data sets on one page.

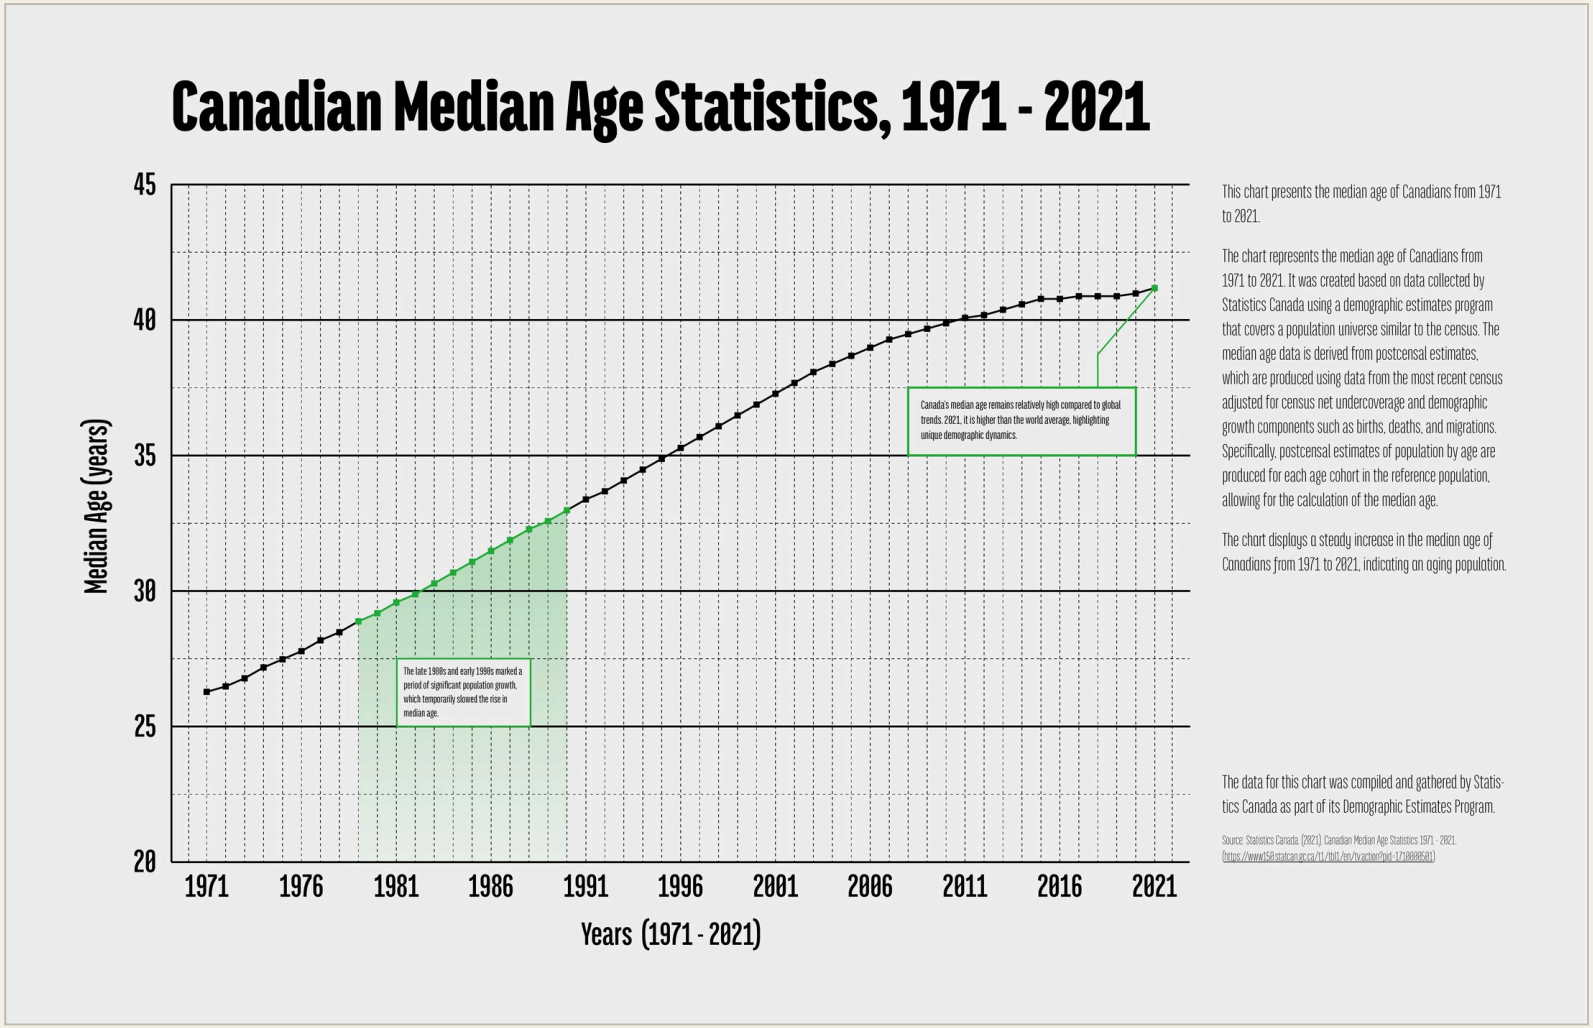

INFORMATION DESIGN

Canadian median age, 1971–2021

Data chart
Graphic Design 3, OCAD University · September 2023

A line chart built from Statistics Canada data. Green marks the period when population growth slowed the rise in median age, and short notes explain the turning points.

MOTION

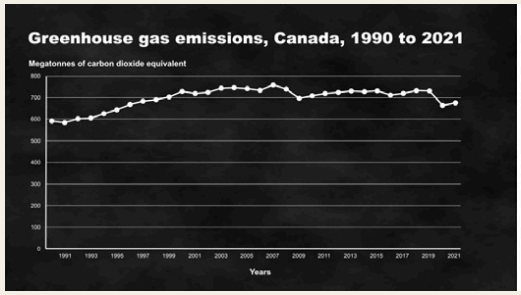

Canada’s greenhouse gas emissions, 1990–2021

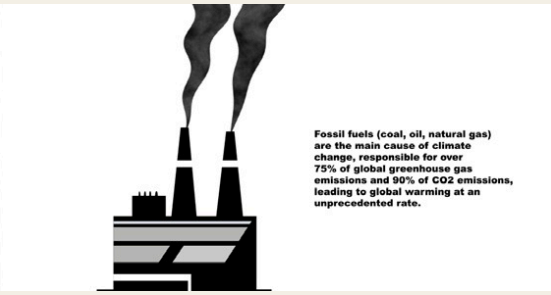

Data animation, 2:05 · After Effects
Graphic Design 3, OCAD University · December 2023

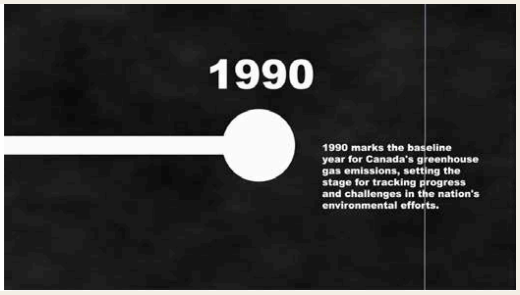

I sourced the data, drew the storyboard and style frames, and animated the piece.

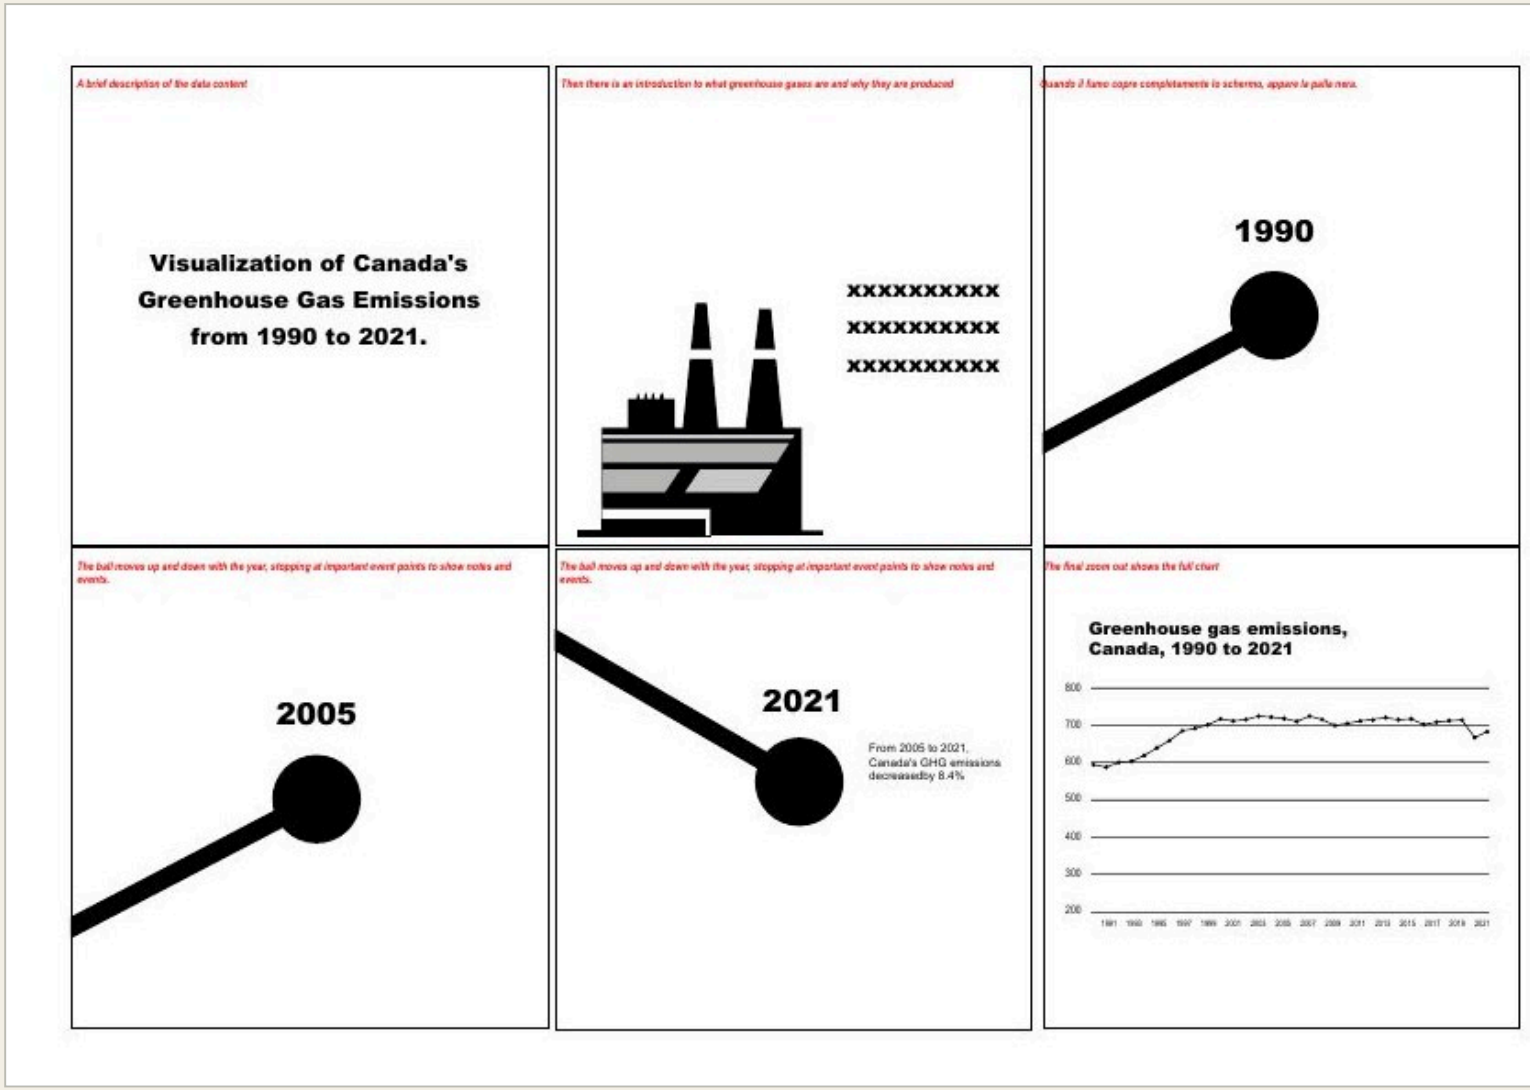

Watch: youtu.be/cpaTPtrDsjE

Also **Ps5**, an animation short (1:28, After Effects, April 2023): youtu.be/oefyMmPyj54

BRAND AND APP

Porcelly

Brand and app concept for a pottery-making service · November 2024

Porcelly lets people book and plan a session at a ceramics studio. I designed the name, the identity, the icon set and the app screens.

INSPIRATION

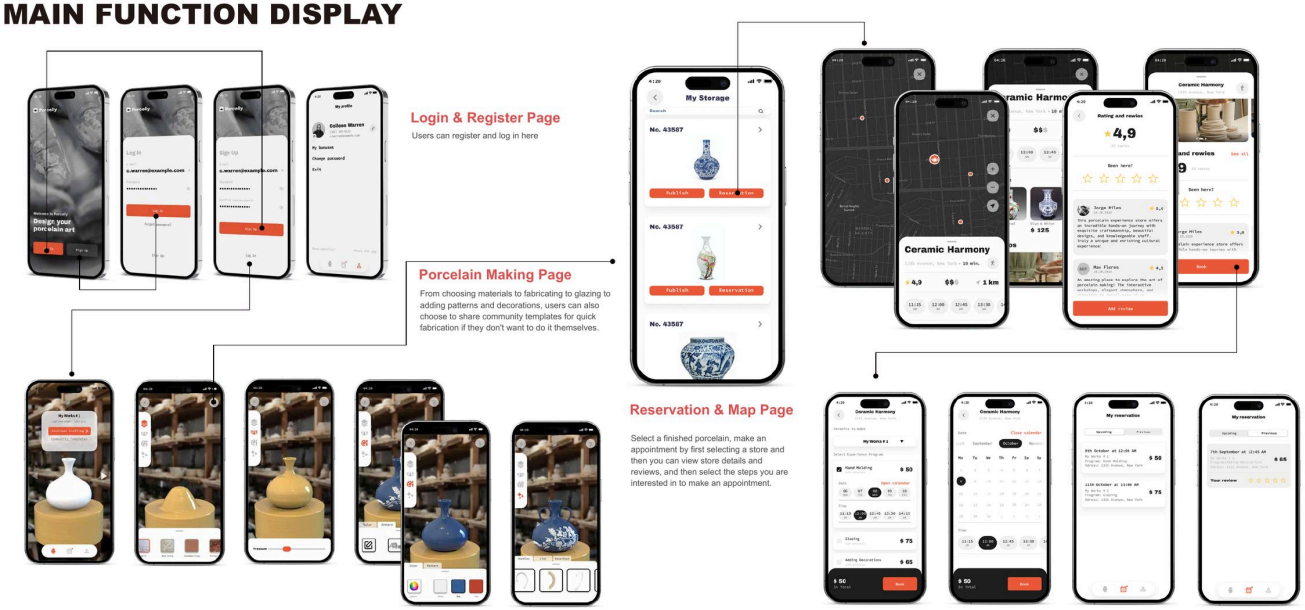

Turn the porcelain store into an artistic and historical journey. Use soft lighting, fresh tea scents, and interactive displays. Offer workshops to highlight craftsmanship and use AR to **bring history to life** with personalized design experiences.

Organize the store by styles and periods with plaques and QR codes. Include **a live demo area** where artisans share their craft. Blend tradition and modernity to enhance appreciation for porcelain art.

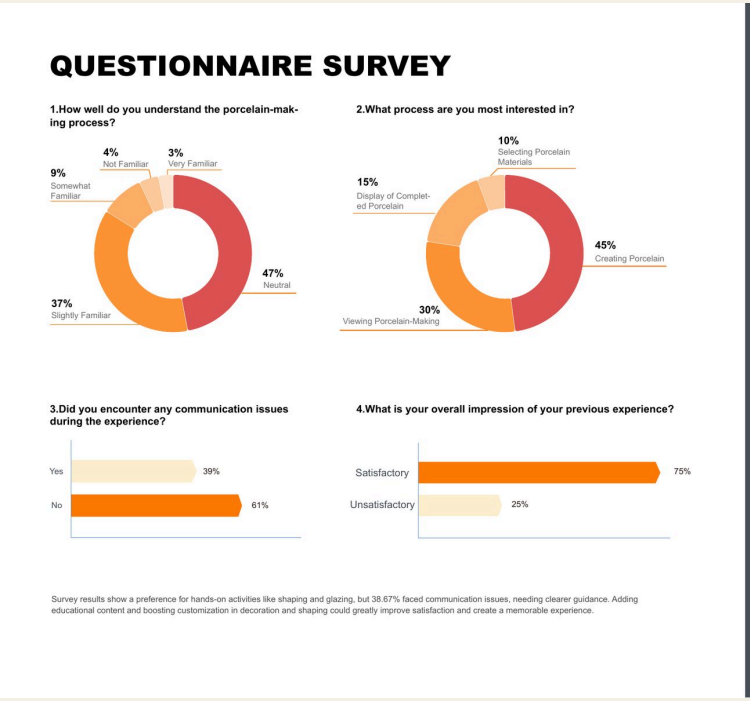

MAIN FUNCTION DISPLAY

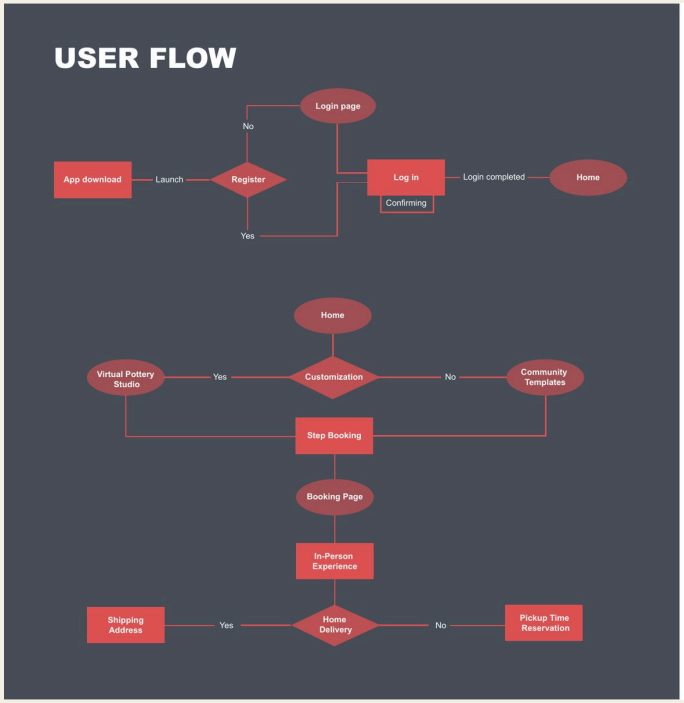

BRAND AND APP

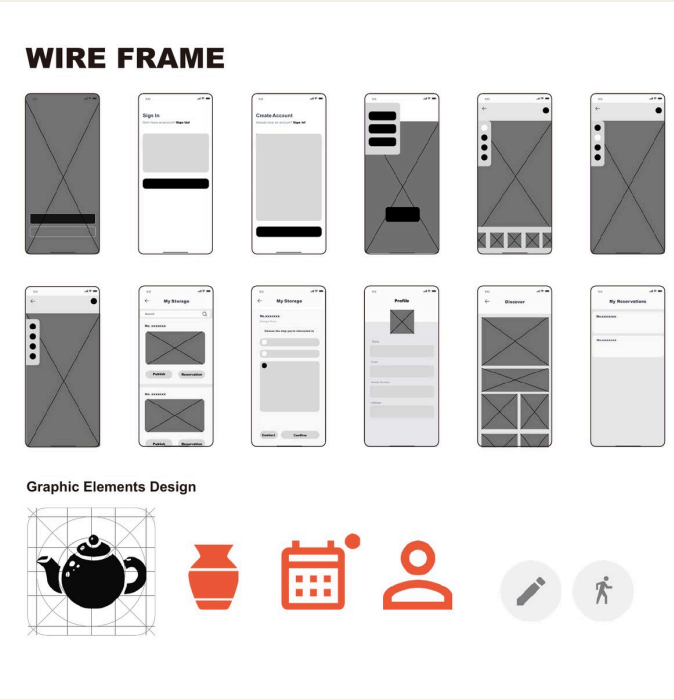

Porcelly: from research to screens

The concept started from a questionnaire about people's interest in ceramics, then moved through user profiles and user flows to wireframes and icons.

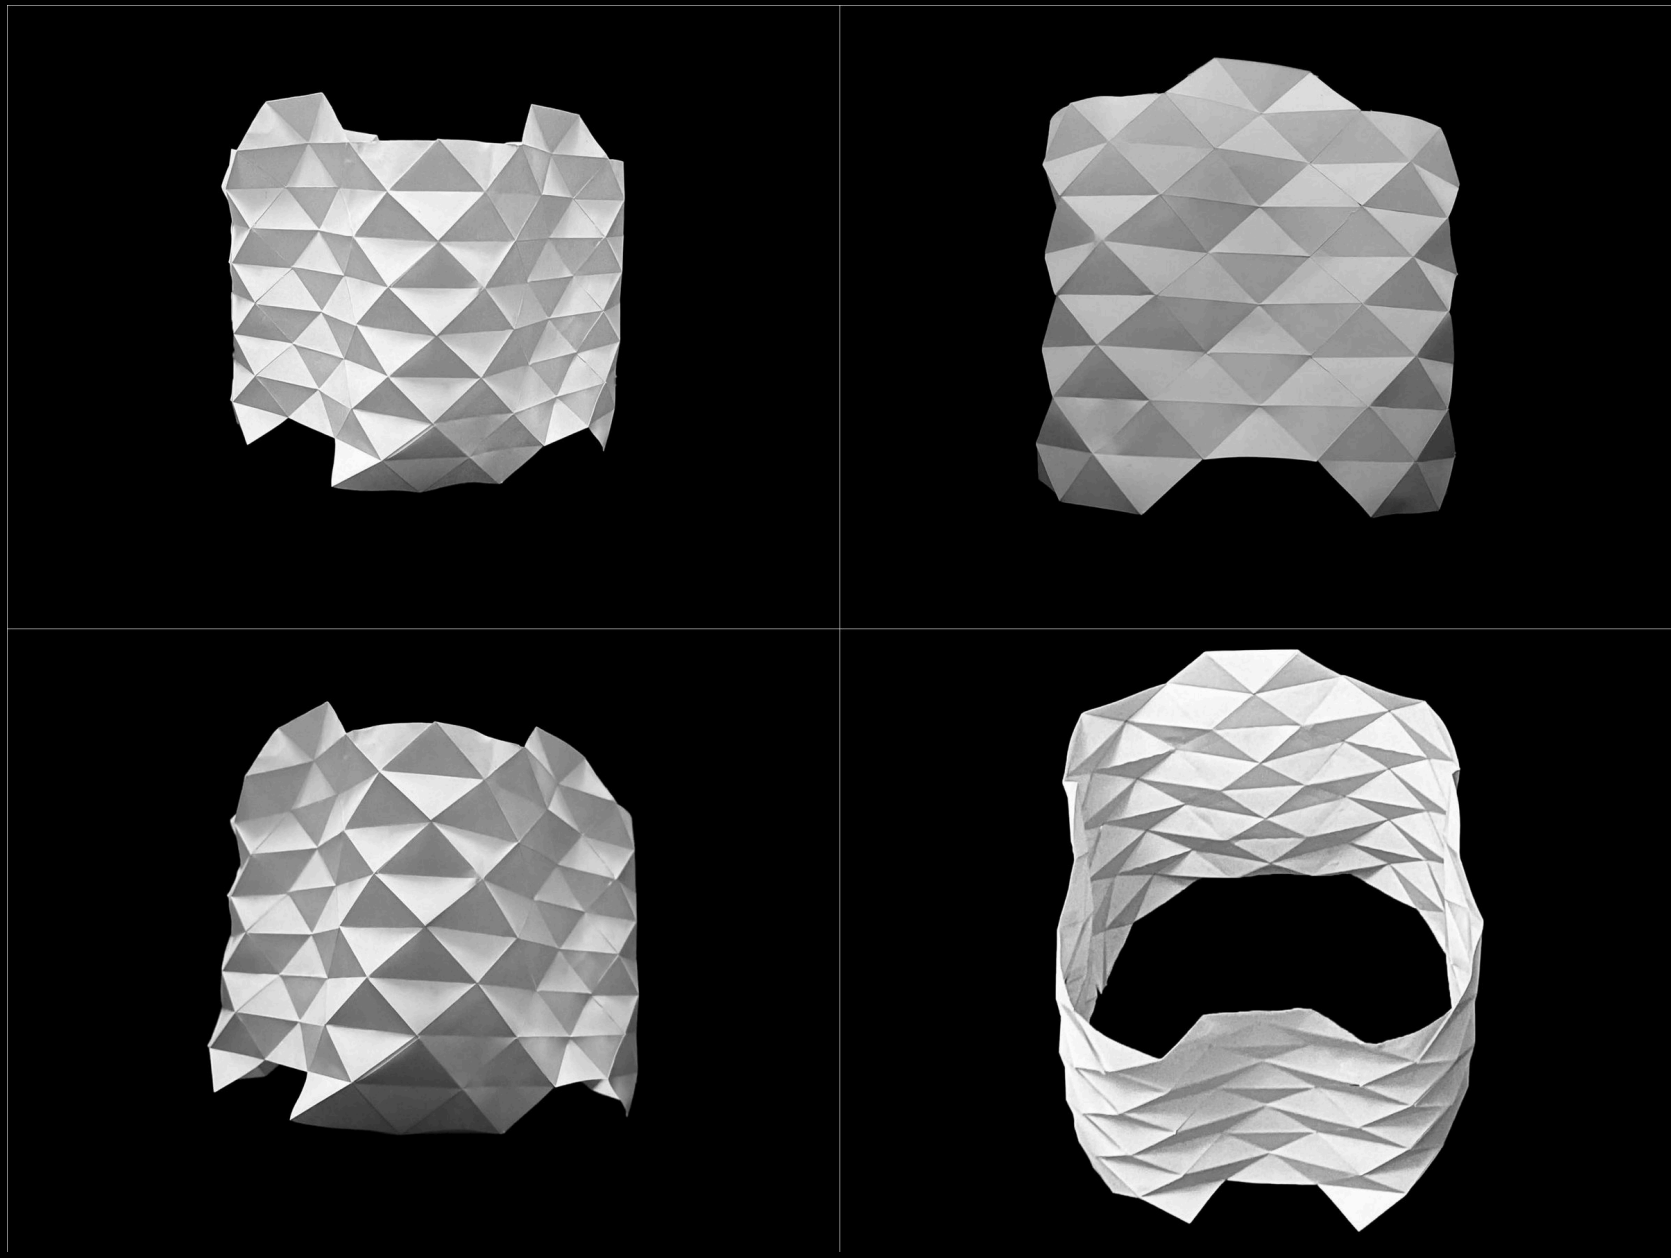

FORM

Paper structure studies

Design Process 2, OCAD University · June 2022

Folded paper modules developed into a closed, free-standing form, photographed on black to show how the folds catch the light.

Wuyuan Gao

I studied Graphic Design (BDes Honours) at OCAD University in Toronto, 2021–2025, and completed an MDes in Design Innovation and Service Design at the Glasgow School of Art in September 2026. This portfolio collects the visual work from my first degree.

Studio experience

Intern graphic designer, Nanjing Yindu Ogilvy Advertising, May–August 2023: posters, vehicle graphics and a bar logo.

Intern graphic designer, Nanjing Jinguo Graphics, August–November 2023: a hospital-event brochure and product manuals.

A poster, logo options and brochure spreads from these internships are on page 5.

Tools · InDesign, Illustrator, Photoshop, After Effects, Premiere Pro, Figma

Languages · Mandarin (native), English (professional working proficiency)

Service design and research projects, including work with Scottish Widows and a study of month-end paperwork in Glasgow small businesses: gaogaomyx.github.io/portfolio
